Temple System

Front Door

Neil Cole Lifeguard Hand Principle

When you grasp a drowning man's hand the whole body connected to it is rescued.

When a lost person is saved, they are connected to a whole body of Christ which comes out with them, including a pastor

The greater the distance in philosophy from the Temple System and the Discipleship System, the less the potential for conflict IF the Discipleship System does not threaten or attempt to change the Temple System but focuses primarily on disciple making as they should.
